

Curt Mullin
Programmer analyst (IIS6) at the Oregon Legislative Administration

To Whom It May Concern

I met John more than five years ago at Western Oregon University. Since then John has worked on several projects of small to medium size, building new experience with each project. Each project I've had the opportunity to work with John on has demonstrated his main strengths of dedication and goal driven work ethic. When given a clear and concise goal he can quickly learn the necessary skills to meet that goal. Recently, John has completed an online portfolio, (johnsloan.azurewebsites.net), that directs all stakeholders to multiple projects including sloanssigns.com and another for a local company in Salem called Bark Boys, Inc (barkboys.net). These are all MVC applications and exemplifies his skills in these areas. I am writing to recommend John for a junior level position or other similar work in programming with .Net and C#.

Sincerely,

A handwritten signature in blue ink, appearing to read "Curt Mullin". The signature is fluid and cursive, with the first name "Curt" and last name "Mullin" clearly distinguishable.
